## **Technical Specifications**

Specifications	
Sensor	Negative Corona Sensor
Maximum sensitivity	3g/a
Warm-Up time	3s
Sensitivity adjustment	6 Levels
Alarm light	6 Levels
Battery status	V
Zero reset	V
Mute	V
Battery	AA Alkaline Battery x 4
Battery life	20h
Auto power off	V
Probe life	About 50h in normal detection condition
Operating temperature and humidity	0°C~50°C, <95%RH (non-condensing)
Characteristics	
Power supply	AA Alkaline Battery x 4
Product size	190 x 65 x 43mm (Not probe rod included)
Product net weight	312g (Not battery included)
Standrad accessories	Refrigerant Leak Detector, Quick Start Guide, Safety Guideline, AA Alkaline Battery x 4, Auxiliary Probe x 1
Standard quantity per carton	10pcs
